

## AGENDA

September 14, 2019

**7:00 AM**      **Registration & Continental Breakfast**

### **The Aortic Valve**

**Moderators:** Steven A. Goldstein, MD; Lowell F. Satler, MD

**7:30 AM**      **Welcome & Introductory Remarks**

Stuart F. Seides, MD

**7:45 AM**      **The New SAVR is TAVR Changing the Landscape of Treatment Across all Risks for Patients with Severe Aortic Stenosis Onwards?**

Ron Waksman, MD

**8:00 AM**      **Optimizing Echocardiography and Doppler Assessment of Aortic Stenosis: Tips and Tricks**

Steven A. Goldstein, MD

**8:15 AM**      **Low-Gradient, Low Flow Aortic Stenosis: Role of Dobutamine Stress Test**

Preetham Kumar, MD

**8:30 AM**      **Pre-procedural Planning for TAVR: The Importance of 3D Echo and CT**

Gaby A. Weissman, MD

**8:45 AM**      **Prosthetic Aortic Valve Dysfunction: Echo-Doppler Assessment**

Diego Medvedofsky, MD

**9:00 AM**      **Aortic Valve Repair and Valve Sparing Root Replacement**

Christian Shults, MD

**9:15 AM**      **Transcatheter Electrosurgery for Patients Ineligible for Conventional Therapy**

Toby Rogers, MD

**9:30 AM**      **Echo Criteria for Severe Aortic Stenosis and Regurgitation the Essentials**

Sumbal Janjua, MD

**9:45 AM**      **Group Discussion I**

**Moderators:** Steven A. Goldstein, MD; Lowell F. Satler, MD

**Panelists:** Ian Chang, MD; Sumbal Junjua, MD; Preetham Kumar, MD; Toby Rogers, MD; Vinod H. Thourani, MD; Gaby A. Weissman, MD;

**10:00 AM Break Visit Exhibits**

## **The Mitral Valve – Part I**

**Moderators:** Vinod H. Thourani, MD

**10:30 AM Transcatheter Mitral Valve Repair: Current and Future Directions: From MitraClip and Onwards**

Lowell F. Satler, MD, FSCAI

**10:45 AM Transcatheter Mitral Valve Replacement: Current and Future Directions**

Vinod H. Thourani, MD

**11:05 AM Mitral Regurgitation: Mechanism and Quantification**

Steven A. Goldstein, MD

**11:25 AM How to Assess and Grade Mitral Regurgitation After Mitral Clip Repair**

Andrew Chen, MD

**11:40 AM Intraoperative Echo Guided Surgical Mitral Valve Repair: From Simple to Complex**

Vinod Thourani, MD

**11:55 AM Minimally Invasive Mitral Valve Repair with Neo-Chordae**

Christian C. Shults, MD

**12:15 PM Group Discussion II**

**Moderators:** Vinod H. Thourani, MD;

**Panelists:** Andrew Chen, MD; Steven A. Goldstein, MD; Lowell F. Satler, MD, FSCAI; Christian C. Shults, MD

**12:35 PM Lunch and Visit the Exhibits**

## **The Mitral Valve – Part II**

**Moderators:** Lowell F. Satler, MD, FSCAI

**1:30 PM The Importance of 3D Imaging in the Planning of and Guidance for Transcatheter Mitral Repair and Replacement Procedures: From Simple to Complex**

Preetham N. Kumar, MD; Vinod H. Thourani, MD

**1:45 PM CT Planning for TMVR, Valve-in-Valve, Valve-in-Ring and Valve-in-MAC**

Andrew W. Ertel, MD

- 2:00 PM**      **What Have We Learned from the Echo Sub Study of the COAPT Trial and How it Will Affect Eligibility of Patients for FMR?**  
Steven A. Goldstein, MD
- The Tricuspid Valve, Left Atrial Appendage, and Atrial Septal Abnormalities**  
                  **Moderators:**    Manish H. Shah, MD; Christian C. Shults, MD
- 2:15 PM**      **Echo-Guided Transcatheter Repair for the “Forgotten” Tricuspid Valve**  
Steve Goldstein, MD
- 2:30 PM**      **Echo Assessment of the Left Atrial Appendage: Pre, During and Post Closure**  
Andrew Chen, MD
- 2:45 PM**      **Stroke Prevention for Patient with Atrial Fibrillation: Anticoagulation Versus Percutaneous or Surgical Left Atrial Appendage Closure**  
Manish H. Shah, MD; Christian C. Shults, MD
- 3:20 PM**      **Group Discussion III**  
**Moderators:** Manish H. Shah, MD; Christian C. Shults, MD;  
**Panelists:** Lowell F. Satler, MD, FSCAI; Steven Goldstein, MD; Andrew Chen MD;
- 3:45 PM**      **Adjourn**
